WHO WE ARE

CANDID, AN INNOVATIVE ALL-INCLUSIVE SOLUTIONS PROVIDER IN NYC, LAS VEGAS AND BEYOND

Our team of professionals can plan, manage and execute solutions for your most demanding projects. The Candid staff is proactive and anticipates your concerns before problems arise. From design creation and development to spec verification, creative approval, project management, printing, logistics, shipping, materials tracking & posting verification, we are truly an all-inclusive solutions provider for all of your media and graphic displays needs

CANDID LITHO

As one of New York City's preeminent printing and graphic arts companies, Candid Litho is dedicated to building on its 55 year reputation by providing an unrivaled level of quality in print production, customer service and a wide range of graphic services. Candid Litho delivers innovative solutions specifically tailored to meet the challenges of today's high-tech printing and production market.

GOING GREEN

Candid Litho is committed to reducing our carbon footprint while still delivering the highest quality printing possible. Printing on FSC® certified stock shows that we comply with the most strict social and environmental standards on the market.

CANDID WORLDWIDE

Candid Worldwide is a multi-format digital print, media display and print management company. Optimally structured to service creative and media agencies and the national brands they represent, by offering a multitude of creative services ranging from sophisticated brand experiences and multimedia engagement zones to billboards, three-dimensional wall coverings, transit ads, vehicle wraps, and in-store POP and window displays. Complemented by our rapid installation through the expertise of our custom installers.

CANDID PARTNERSHIPS

OUR MISSION

Exceptional creativity and innovation surrounds us where constant change and new developments are the "norm". We have and always will strive to be an active driving force and leader in this city, like no other in the world, which is why we call New York City our home.

Our dynamic clients are a main source of inspiration and motivation for us. We have tailored our business such that we are able to meet and exceed the expectations of our clients and provide them all encompassing, full service, products and solutions to meet their business needs – whatever they may be.

We are positioned to continue to grow and expand rapidly into new markets with added capabilities, resources and additional solutions for all of our clients.

Together as one, we will continue to be one of the most successful innovative Print-Solution Providers, headquartered in New York City, across the US and beyond.

LOCATIONS

Our fully equipped East and West Coast facilities allow us to strive for the best in print, project management and design, giving us the flexibility to deliver your projects faster, more cost-efficiently and hassle-free, anywhere worldwide.

SERVICES

CREATIVE & DESIGN SERVICES

IN-HOUSE CREATIVE & DESIGN SERVICES

Our full-service design studio works in collaboration with our clients to translate their concepts into printed materials with the right tone to achieve the highest impact possible.

PRE-PRODUCTION

Our fully equipped East and West Coast facilities allow us to strive for the best in print, project management and design, giving us the flexibility to deliver your projects faster, more cost-efficiently and hassle-free, anywhere worldwide.

PRE-PRESS

When a designer releases art for production, our team of knowledgeable pre-press technicians runs a series of operations to check and verify that the files are clear of any potential issues and are ready for print. The technician will then print out proofs, which are checked for size, content and position and sent to the client. It's at this point, once approved, that plates are made and sent to the presses.

SITE-SURVEYS

We will send our team of installers to our client's project site and perform a thorough survey, which includes measurements and photographs to determine any special needs to complete the project. We will create templates for clients to drop artwork into or use as design guides.
